# Remote Connection Box
**Remote Connection Box for CO2 Safety System**

$C\epsilon$

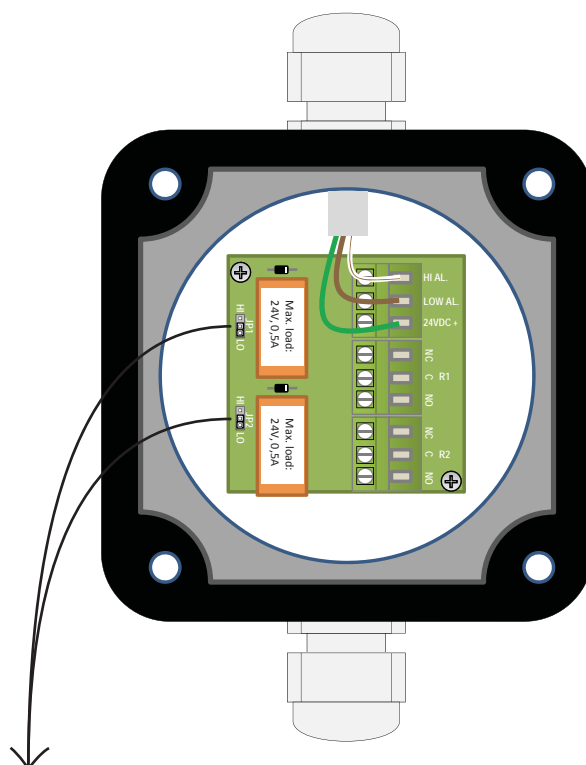

## FUNCTION

Remote connection box for CO2 Safety System. In many places it has become standard with remote connection to fire departments through the normal existing fire alarm system. This little add on takes care of this function. It can also be used to run external ventilation.

The cover has a twist opening lid and opened by turning counterclock-wise 1/8 turn.

## CONNECTION OF REMOTE CONNECTION BOX

Hi alarm/Low alarm connector

JP 1 and 2

HI  LO

Factory settings: Low alarm
